EXECUTIVE READ

What matters now

Top-level conclusion, primary support, and the main restraint in the current weekly setup.

Conclusion

The strongest supporting evidence is indicator analysis: Latest 12-week confirmation: trend 8/12, activity pressure 12/12, relative leadership 8/12. The main constraint is weekly tape: Trend, activity pressure, participation, and risk combine to a 60/100 tape read. The combined read is balanced, making the next change in trend, sentiment, or options pressure especially important.
